Reseller Program

Reseller Program

Our Reseller Program enables resellers to make high profits by selling our products using their own marketing channels in local markets. We provide a wide range of opportunities with a minimal inventory investment for reseller partners to meet the specific market needs of any client. We hope to cooperate with resellers focused on specific countries or regions. But we prefer individual negotiations rather than just laying down fixed terms and conditions, because we regard sales volumes and commitments to promote our products as key factors in determining partnerships between both sides. For any request or question of our reseller program, please contact us by: reseller@aomeitech.com

Why AOMEI Technology?

After you take part in the Program, you can get some benefits:

- **High-quality products**

We sparing no efforts to increase our product quality lead us to be trusted by a huge number of users around the world. Compared with the similar software, we offer you more features and some amazing functions (such as Windows to Go Creator) with lower

price.

- **Low wholesales prices**

We offer our partner very competitive wholesaling discount, based up to 50%. The more you order, the lower you pay. We even provide aggressive discount program for Governments, Churches, Schools, Charities and many other groups. Details please [email](#) to us.

- **Flexible customization**

Besides, we also provide product customization for local markets. We can offer products according to your requirements such as localization (language, etc). And we have no minimum sales volume requirements.

- **Extra discount promotion**

Excellent resellers will have the chance to join our [distributor program](#).

- **Increased partner exposure and traffic**

We will help you increase your brand awareness by positioning your company logo on our website. This is called WIN-WIN mode.

Our Promise:
