

AOMEI TECHNOLOGY

mBackupper

Say "NO" to Data Loss

mBackupper Introduction

mBackupper is a lightweight iOS devices backup software. It can help you quickly back up almost all files (including photos, videos, music, contacts, and text messages) on your iPhone/ iPad/ iPod, and you can conveniently preview your backup files on your computer and restore the files you needed to the device. Our mission is to protect the data on your device in the fastest and safest way. Therefore, mBackupper is faster than iTunes and other mobile backup software. And the entire backup process is carried out locally, perfectly protecting the security of your data.

Main Functions:

- Preview and backup photos, videos, pictures, movies, music, SMS and contacts on your iOS devices according to your needs.
- View your backed up files on the computer.
- Restore some or all of the backed up files to the iOS device
